Yes, that is correct. I did not know that I couldn't have old farm trucks in an agricultural building. Som File No. AG-2114 can go away. I will contact PPRBD for the permit process. Thank you for your helping me understand this process.

Rick,

Thank you for speaking with me this morning. Based on our conversation, you are withdrawing you application for an Agricultural Structure Exemption (File No. AG-2114) in order to pursue a building permit for the structure. It is my understanding, based on our conversation, that you intend to use the structure for non-agricultural purposes and therefore the agricultural structure exemption is no longer a viable option. Please reply to this email confirming that you are requesting to withdraw your application (File No. AG-2114).

Please work with the Pikes Peak Regional Building Department (719-327-2880) to being the permitting process for the structure.

Thank you,

Mindy Madden

Hi Mindy,

Unsure of how to answer this question. The building is placed exactly where the drawings show and it was built off of engineered drawings, but they (Charles) wants me to call it a garage/shop vs an Ag building. I'm not completely finished building it yet. I am guessing I will need to get a permit per Irving. I don't really know or understand all of this... Can you help with my dilemma? Please call me at 719-491-3445 I would like to talk with you.

Thanks,
Rick Theisen

Rick- can you confirm whether or not you are withdrawing your application for the agricultural structure exemption? I need to get this application either processed or closed out. Thanks!

Thank you,
