

Colorado Springs Utilities NE Gravel Staging Area

Traffic Information

Approximately 15 light trucks currently enter the GPAP per day. Additionally, the GPAP receives propane deliveries twice a year, resulting in four trucks entering the site per day for a full week each time. Utilities anticipates a minimum of two vehicles entering the gravel staging area per day. These vehicles will primarily be dump trucks and semi-trucks hauling materials. Based on this data, Utilities anticipates a minimum of 120 to a maximum of 200 vehicles per week entering the combined staging area and GPAP site. All traffic will enter the site from the east and will leave the site heading east towards Marksheffel Road. Site distance will not change with the addition of the staging area site. Utilities is not proposing any signs along Carefree Circle North.
